OFFICE OF PETITIONS

Applicant: Pietrzyk, Andrzej
Appl. No.: 10/540,587
International Filing Date: November 12, 2003
Title: SYSTEM OF THREE-DIMENSIONAL MULTIPURPOSE ELEMENTS
Pub. No.: US 2006/0155388 A1
Pub. Date: July 13, 2006

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on July 27, 2006, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error in paragraph 18, line 5 wherein "walls 6" is misprinted as "waits 6".

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.¹

The error noted by requestor wherein the term "walls 6" has been misprinted as "waits 6" in paragraph 18, line 5 may be an Office error, but it is not a material Office error under 37 CFR 1.221. The error is a typographical error, which is clearly understandable to one of ordinary skill in the art in reading the specification as the element 6 "walls" is repeated four times in the paragraph. The mistake is a minor typographical, which does not affect the understanding of the application. The mistake does not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

¹Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221 (a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18 (d) and the processing fee set forth in § 1.17 (i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18 (d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB
Commissioner for Patents
P.O. Box 1450
